

SPARSH SHARMA

Los Angeles, California (open to relocation) | (310)-295-8731 | sparssh8@gmail.com | [LinkedIn](#) | [GitHub](#) | [Tableau Public](#)

SUMMARY

Data and AI professional with 3 years of experience turning data into decisions - building dashboards, automation pipelines, and LLM-based agents that drive measurable business outcomes. UCLA Anderson MSBA graduate with a track record across telecom, consulting, supply chain, and accounting, pairing strong analytics fundamentals (SQL, Python, experimentation) with hands-on agentic AI delivery to define problems, quantify impact, and ship tools teams actually use.

TECHNICAL SKILLS

Languages: Python, SQL, R

Data Analysis: Statistical Analysis, Predictive Modeling, Machine Learning, KPI Design, A/B Testing, Cohort Analysis

Agentic AI: LLM-based agents, Workflow automation, Prompt engineering, RAG & vector databases, Claude Code and Skills, MCP and multi-agent orchestration, LLM evaluation, AWS Bedrock

Data Visualization: Tableau, Streamlit, QuickSight, MS Excel

Data Engineering: ETL Pipelines, PySpark, KNIME, dbt

Cloud & Databases: AWS, Snowflake, Redshift, DuckDB

PROFESSIONAL EXPERIENCE

ELIAS AZIZ – LAVI CPA (*Taxation and audit firm for high net-worth individuals and corporations*)

Los Angeles, CA

AI Implementation Specialist

Jun 2026 – Present

- Built and deployed **AI agents and Claude Skills** that automated tax and accounting workflows: email triage, file categorization, penalty location, and Form 843 follow-ups, replacing hours of manual work.
- Automated financial reporting and reconciliation**, building Lacerte-vs-QuickBooks invoice/A/R comparison reports and consolidated client penalty trackers to surface discrepancies and speed client turnaround.

UCLA ANDERSON

Los Angeles, CA

Data Analyst

Dec 2024 – Mar 2026 (Part-time)

- Built **AI-powered learning assistants** and prototype app-builder agents adopted by 200+ MBA students to support project development and autonomous learning.
- Performed **time-series and cluster analyses** on multi-year MBA Capstone outcomes to identify trends in project performance and team dynamics informing data-driven mentorship strategies that **improved team success rates by 15%**.
- Conducted **statistical studies** and built **Tableau dashboards** correlating advisor feedback with student outcomes, driving curriculum policy updates that enhanced project evaluation consistency by 20% & boosted **student satisfaction scores by 12%**.

AMAZON.COM, Inc.

Bellevue, WA

Business Intelligence Engineer Intern

Jun 2025 – Sep 2025

- Built a **score-based recommender and optimization algorithm** that redistributes inventory across Fulfillment Centers using capacity, labor, and cost data, enabling faster, data-driven operational decisions.
- Partnered with product managers to ship an **interactive web-app & QuickSight dashboard** for, and automated backlog-steering workflows, cutting manual reporting and optimization effort 40% and improving network responsiveness at peak demand.

SAARTHEE.AI (*Data Analytics & AI Solutions Company serving telecom and enterprise clients*)

Gurugram, India

Analyst

Jun 2022 – Apr 2024

- Built automated data analysis systems and data-flows using Python and KNIME to track important key performance indicators (product conversion ratio, YoY/MoM growth, customer retention %), **enhancing revenue by \$235K** and **decreasing churn rate by 8%** annually for Fortune 50 telecom conglomerate.
- Partnered with consultants to perform **A/B tests and cohort analyses** on retention and conversion, enabling data-driven strategy shifts across business units.
- Developed **Rep Performance Reporting tool** in **Tableau** to help stakeholders track performance of sales representatives and agents, efficiently decreasing performance tracking time by 80%.
- Led** an analytics team to implement **geo-segmentation** and opportunity targeting models that improved sales close rates by **28%**.

EDUCATION

UCLA ANDERSON SCHOOL OF MANAGEMENT

Los Angeles, CA

Master of Science in Business Analytics (MSBA)

Sep 2024 - Mar 2026

- Received UCLA Anderson MSBA Applied Analytics Project - Excellence in Consulting Award

DELHI TECHNOLOGICAL UNIVERSITY

Delhi, India

Bachelor of Technology in Mechanical Engineering

Aug 2018 - May 2022

PROJECTS

- Marketing Optimization AI Agent** (*Capstone project for Hyperlocology*)
Developed an AWS Bedrock-powered knowledge agent for marketing campaign optimization & strategic recommendations.
- Wildfire and Pollution Analytics Pipeline**
End-to-end ETL using GCP, PySpark and DuckDB to process 10 yrs of wildfires data & visualized trend insights in Tableau.
